

SUBJECT INDEX TO VOLUME 62

- Acetylcholinesterase inhibitors
 myelin integrity improved using, 294
- Acute coronary syndromes
 C-reactive protein in, 302
 depression in, 302
- Acute tryptophan depletion, 542-corr, 593
- Addiction
 behavioral disinhibition and, 551
 personality disorders and, 551
- Adolescents
 autism in, 192
 bipolar disorder in, 107
 depression in, 40
 social anxiety disorder in, venlafaxine for, 1149
- Adrenocorticotrophic hormone
 childhood maltreatment effect on, 1080
 posttraumatic stress disorder and, 1175
 stress levels of, hippocampal volume as predictor of, 1171
- Affect startle
 in borderline personality disorder, 250
- Affective disorders
 Munich Vulnerability Study of, 703-corr
 social isolation and, 1162
- Affective psychosis
 first-episode, neocortical gray matter volume in, 773
- Aggression
 escalated, anti-aggressive effects of risperidone effects on, 218
 impulsive, amygdala-orbitofrontal dysfunction in, 168
- Aging
 amygdala response to human faces in, 1388
 successful, 282
- Alcohol dependence
 CNR1 variation and, 616
- Alcohol use
 buprenorphine reduction of, by activation of nociceptin/
 orphanin FQ-NOP receptor system, 702-corr
 naltrexone-induced reduction of, family history of
 alcoholism effects on, 694
 parental, effect on alcoholism risks in offspring, 607
- Alcoholism
 brain volume and, 607
 family history of, naltrexone-induced reduction in alcohol
 drinking influenced by, 694
- Alzheimer's disease
 cortical plasticity in, 1405
 mild, amygdala responses to human faces in, 1388
- Amygdala
 chemical metabolite alterations in, autistic symptoms in
 autism spectrum disorders secondary to, 1030
 dysfunction of, in intermittent explosive disorder, 168
 hyperfunction of, in phobic fear, 1119
 infant shock effects on, 1070
 oxytocin effects on responses to emotional faces, 1187
 response of, to emotional faces
 in aging, 1388
 in generalized social phobia, 455
 in mild Alzheimer's disease, 1388
 volume
 analysis of, in female twins with major depression, 415
 in bipolar disorder, 884
 in schizophrenia, 884
- Amyloid β peptides
 in elderly without cardiovascular disease, 1413
- Anger
 CREB1 polymorphisms and expression of, in major
 depressive disorder, 536
- Animal models
 of depression, 92
 description of, 1337
 of escalated aggression, 218
 of schizophrenia, 730
- Anterior cingulate cortex
 dorsal, in fear expression, 1191
 magnetic resonance imaging of, for antidepressant
 treatment response evaluations, 407
- Anticonvulsants
 antidepressant actions as, 345
- Antidepressants
 amyloid β peptides and, 1413
 anticonvulsant effect of, 345
 brain imaging studies to predict symptom improvement
 after, 407
 clinical trial outcomes, depression severity entry criteria
 and, 65
 human models of, erythropoietin reduction of neural and
 cognitive processing of fear in, 1244
 major depressive disorder treated with, 1217
 mouse model of, tail suspension test as screening test for,
 81
 URB597 activity similar to, in rat model of chronic stress,
 1103
- Antipsychotic drugs
 working memory task in first-episode schizophrenia
 affected by, 818
- Anxiety
 acute stress and, 1183
 metabolic syndrome and, 1251
 orbitofrontal cortex's role in mediating, 1134
 symptoms of, longitudinal typology of, 1265
- Apolipoprotein E
 memory and cortisol in older adults affected by, 472
 myelin breakdown affected by, 1380
 neurotrophic effects of, 391
- Arachidonic acid
 N-methyl-D-aspartate receptor-initiated signaling via,
 carbamazepine effects on, 934
- ASIC1a
 targeting of, for reducing innate fear, 1140
- Asperger syndrome
 facial emotion processing in, event-related functional
 magnetic resonance imaging of, 207
- Atomoxetine
 response inhibition in adults with
 attention-deficit/hyperactivity disorder improved with,
 977
- Attention-deficit/hyperactivity disorder
 adults with, atomoxetine effect on response inhibition in,
 977
 dopamine transporter dysregulation in, 1059
 DRD4 association in, 985
 endophenotypes for, 991
 family-based association test, 985

- lisdexamfetamine dimesylate and mixed amphetamine salts for, 970
- methylphenidate for
 - disturbed intracortical motor inhibition and facilitation restored with, 963
 - neuropsychological effects of, 954
- pharmacotherapy of, 951
- temporal lobe dysfunction in, 999
- Auditory fear conditioning
 - selective serotonin reuptake inhibitor-induced increase in, 1111
- Autism
 - in adolescents, 192
 - brain size in, fetal ultrasound study of, 1048
 - in children, 192
 - features of, 949
 - fetal brain growth in, 1048
 - head circumference in, 1038, 1048, 1056
 - high-frequency electroencephalogram oscillations in, 1022
 - high-functioning
 - caudate nucleus enlargement in, 262
 - epidermal growth factor levels in, 267
 - inhibitory control in, 198
 - platelet-endothelial adhesion molecule-1 levels in, 1056
 - in infants, abnormal magnocellular pathway visual processing in, 1007
 - inhibition circuitry in, 198
 - MEG steady-state gamma responses in, 192
 - neural synchrony disturbances and, 190
 - olfaction in, 1015
 - resting state cortical connectivity in, 270
 - taste processing in, 1015
- Autism spectrum disorders
 - chemical metabolite alterations in amygdala-hippocampus region, 1030
- Autoimmune thyroiditis
 - bipolar disorder and, 135
- Aversive conditioning
 - blood-oxygen level dependent response during, temporal difference modeling of, 765
- Backward masking deficit
 - in schizophrenia, 793
- Basic fibroblast growth factor
 - hyperactivity and, 235
- Behavioral disinhibition
 - addiction and, 551
 - personality disorders and, 551
 - preschool, 565
- Bipolar disorder
 - in adolescents
 - prevalence of, 107
 - substance use disorders and, 129
 - amygdala volume in, 884
 - autoimmune thyroiditis and, 135
 - B-lymphoplasts in, 141
 - in children
 - facial emotion processing in, 158
 - prevalence of, 107
 - cognitive deficits in, 179
 - development of, 104
 - endoplasmic reticulum stress response impairments in, 141
 - facial emotion processing in, 158
 - genetic vulnerability for, 135
 - glutamate levels in, 1310
 - gray matter loss in, 894
 - juvenile, 115
 - lithium-treated, cortical gray matter density in, 7
 - neuropsychological functioning in, 179
 - P50 auditory evoked potential suppression in, 121
 - prepulse inhibition in, 1418
 - psychotic, 910
 - serotonin transporter binding in, 870
 - substance use disorders and, 129
- Bipolar II disorder
 - cognitive function in, 917
- Blood-oxygen level dependent response
 - during aversive conditioning, temporal difference modeling of, 765
- Borderline personality disorder
 - affect-modulated startle during unpleasant stimuli in, 250
 - 5HT2A receptor binding in, 580
- Brain
 - monoamine oxidase A activity in, 355
 - sex differences in structure, function, and chemistry of, 847
- Brain plasticity
 - long-term synaptic depression in animal model of depression, 92
- Brain volume
 - alcoholism and, 607
- Brain-derived neurotrophic factor
 - childhood sexual trauma and neurocognitive performance, 391
 - knockout mice, serotonin-1A receptor function regulation after corticosterone administration in, 521
 - N-acetylaspartate and, correlation between, 530
- Buprenorphine
 - alcohol drinking reduction using, by activation of nociceptin/orphanin FQ-NOP receptor system, 702-corr
- Bupropion
 - CYP2B6* genotype effect on metabolism of, 635
- Carbamazepine
 - N-methyl-D-aspartate receptor-initiated signaling via arachidonic acid in rat brain reduced by, 934
- Cardiovascular disease
 - affective disorders and, 1162
- Catechol O-methyltransferase Val158Met polymorphism
 - p50 gating endophenotype in schizophrenia affected by, 822
- Caudate nucleus
 - enlargement of, in high-functioning autism, 262
- Cell proliferation
 - in cerebral cortex, chronic unpredictable stress effects on, 496
- Cerebral cortex
 - cell proliferation in, chronic unpredictable stress effects on, 496
- Child Behavior Checklist
 - juvenile bipolar disorder phenotype, 115
- Childhood maltreatment
 - cortisol responses to stress affected by, 1080
- Childhood sexual trauma
 - neurocognitive performance and, 391
- Children. *See also* Adolescents; Infants
 - autism in, 192
