

Index

Note: Page numbers of article titles are in **boldface** type.

A

- Abscess(es)
 - intra-abdominal, 312
- Adenomatoid tumor
 - of pleura, 167–168
- Adjuvant high-dose radiotherapy
 - with extrapleural pneumonectomy
for mesothelioma, 347
- Analgesia
 - for mesothelioma, 342–343
- Antibiotic(s)
 - for parapneumonic effusion, 259–260
- Asbestos
 - diffuse pleural thickening due to, 197–198
 - mesothelioma due to, 335–336
 - pleural fibrosis due to, 184
- Asbestos pleural effusion, 314
- Aspiration
 - in spontaneous pneumothorax management,
374–375
 - pleural
 - in mesothelioma diagnosis, 339
- Atelectasis
 - rounded
 - in diffuse pleural thickening, 198–199

B

- Bacterial infections
 - of pleura, 160
- Barogenic rupture, 296
- Basic fibroblast growth factor
 - in pleural fibrosis pathogenesis, 182
- Bayesian approach
 - to pleural fluid analysis in discriminating between
transudates and exudates, 247–250

- Biliopleural fistula, 298–299
- Bilirubin
 - pleural fluid
 - in discriminating between transudates and
exudates, 243
- Biopsy
 - pleural
 - in mesothelioma diagnosis, 339–340
- Biopsy(ies)
 - pleural
 - in pleural disease, 208–209
- Blood markers
 - in mesothelioma diagnosis, 340
- Brachytherapy
 - radiotherapy and
 - after pleurectomy
for mesothelioma, 347
- Bronchopleural fistula
 - imaging of, 207
- Bronchoscopy
 - in persistent undiagnosed pleural effusion
evaluation, 317

C

- CABG surgery. See *Coronary artery bypass graft
(CABG) surgery.*
- Calcifying fibrous pseudotumor
 - of pleura, 166–167
- Catamenial pneumothorax, 174
- Catheter(s)
 - central venous
 - extravasation migration of, 290–291. See also
*Central venous catheter, extravasation
migration of.*

- Central venous catheter
 - extravascular migration of, 290–291
 - clinical presentation of, 290–291
 - described, 290
 - diagnosis of
 - chest radiography in, 291
 - pleural fluid analysis in, 291
 - management of, 291
 - pathogenesis of, 290
 - Cerebrospinal fluid (CSF)
 - leak to pleura, 311
 - Chemotherapy
 - extrapleural pneumonectomy with
 - for mesothelioma, 347
 - for mesothelioma, 344–346
 - intrapleural
 - for mesothelioma, 345
 - superantigens and
 - for stage IIIB NSCLC, 330
 - systemic
 - for mesothelioma, 345–346
 - Chest radiography
 - in biliopleural fistula evaluation, 299
 - in duropleural fistula evaluation, 289
 - in esophageal perforation evaluation, 297
 - in extravascular migration of central venous catheter evaluation, 291
 - in gastropneural fistula evaluation, 300
 - in misplacement of enteral feeding tubes evaluation, 300
 - in pancreaticopleural fistula evaluation, 295
 - in peritoneal dialysis evaluation, 286
 - in urinothorax evaluation, 288
 - in ventriculopleural shunt evaluation, 292
 - Chest radiography in
 - in mesothelioma evaluation, 340
 - Chest tube drainage
 - in pleural disease, 207–208
 - CHF. See *Congestive heart failure (CHF)*.
 - Cholesterol
 - pleural fluid
 - in discriminating between transudates and exudates, 242–243
 - Chronic pancreatic pleural effusion, 312
 - Chylothorax, 293–295, 314–315
 - clinical presentation of, 294
 - defined, 362
 - described, 293
 - evaluation of
 - pleural fluid analysis in, 294
 - in LAM, 362–364. See also *Lymphangioleiomyomatosis (LAM)*, *chylothorax in*.
 - management of, 294–295
 - pathogenesis of, 293–294
 - pleural effusions due to, 270
 - Cirrhosis
 - with hepatic hydrothorax, 310
 - Closed intercostal drainage
 - for parapneumonic effusion, 260–261
 - Computed tomography (CT)
 - contrast-enhanced
 - in mesothelioma diagnosis, 340–341
 - Congestive heart failure (CHF), 309–310
 - pleural effusions due to, 269
 - Constrictive pericarditis effusions
 - pleural effusions due to, 274–276
 - Contrast-enhanced CT
 - in mesothelioma diagnosis, 340–341
 - Coronary artery bypass graft (CABG) surgery
 - pleural effusion after, 312–313
 - pleural effusions after
 - spectrum of, **267–283**
 - pleural fibrosis due to, 185
 - prevalence of, 267
 - Cryptogenic fibrosing pleuritis
 - pleural fibrosis due to, 186
 - Cytokine(s)
 - for mesothelioma, 348
-
- ## D
-
- Decortication
 - for mesothelioma, 346
 - Diaphragm
 - dysfunction of
 - pleural effusions due to, 267–268
 - Disordered fibrin turnover
 - in pleural fibrosis pathogenesis, 183–184
 - Drug(s)
 - pleural disease due to, 314
 - pleural fibrosis due to, 186
 - Drug reactions
 - in pleura, 164
 - Duropleural fistula, 289–290
 - clinical presentation of, 289
 - described, 289
