

Subject index of volume 166

- Absence epilepsy;** Depressive-like behavior; Anxiety; WAG/Rij strain; Catalepsy; Susceptibility to audiogenic seizures; Rats 9
- Aggressive behaviour;** Ozone; Nerve growth factor; Brain derived growth factor; Mice 124
- Aging;** Tactile allodynia; Oxidative stress; Antioxidants; Persistent nociception 159
- Agonistic interaction;** Glutathione; Restraint stress; Immobilization; Psychological stress; L-NAME 71
- Amitriptyline;** State-dependent learning; Maprotiline; Fluoxetine; Inhibitory avoidance; Memory; Sex differences; Mice 150
- Amphetamine;** Lupus; Autoimmunity; Limbic system; Nucleus accumbens; Motivated behavior; Depression; Sucrose intake; MRL model 32
- Androgen level;** Testosterone; 11-Ketotestosterone; Cichlid fish; Social status; *Astatotilapia burtoni*; Challenge hypothesis 291
- Animal model;** Cognitive impairment; Global ischemia; Hippocampus; Selective neuronal death 204
- Animal model;** CPB-K; BALB/cJ; NMDA; Sensorimotor gating; Neuropsychiatric disease 78
- Antioxidants;** Aging; Tactile allodynia; Oxidative stress; Persistent nociception 159
- Anxiety;** Depressive-like behavior; WAG/Rij strain; Absence epilepsy; Catalepsy; Susceptibility to audiogenic seizures; Rats 9
- Anxiety;** Elevated plus-maze; Fear conditioning; Ultrasonic vocalization; Individual differences; Handling; Freezing 271
- Anxiety;** Four-plates test; Mouse; Test experience; 5-HT₂ ligands 131
- Anxiety;** Green odor; (Z)-3-Hexenol; 5-Hydroxytryptamine; Dopamine; Elevated plus-maze 247
- Anxiety;** Light; GABA; Serotonin; Elevated plus maze (EPM); Benzodiazepine 140
- Aromatization;** Non-genomic effects; Quail; Dopamine; Serotonin; Copulatory behavior 110
- Astatotilapia burtoni;** Androgen level; Testosterone; 11-Ketotestosterone; Cichlid fish; Social status; Challenge hypothesis 291
- Attention;** Visuospatial; Basal ganglia; Ocular motor; Saccade; Inhibition-of-return 211
- Autoimmunity;** Lupus; Limbic system; Nucleus accumbens; Amphetamine; Motivated behavior; Depression; Sucrose intake; MRL model 32
- BALB/cJ;** CPB-K; NMDA; Sensorimotor gating; Animal model; Neuropsychiatric disease 78
- Basal ganglia;** Attention; Visuospatial; Ocular motor; Saccade; Inhibition-of-return 211
- Basal ganglia;** Compulsive behavior; Striatum; Instrumental conditioning; Operant learning; Procedural learning; Habit; Omission 189
- Behaviour;** Lateralisation; Immunity; Dog; Pawedness 236
- Benzodiazepine;** Anxiety; Light; GABA; Serotonin; Elevated plus maze (EPM) 140
- Bimodal odor;** Nociception; Olfaction; Trigeminal 197
- Blood–brain barrier;** Cytokine; Interleukin; Iκ-B; Schizophrenia; Sensorimotor gating 19
- Brain derived growth factor;** Ozone; Aggressive behaviour; Nerve growth factor; Mice 124
- Cannabinoid;** Prepulse inhibition; Social isolation; Schizophrenia; THC; SR 141716 101
- Capuchin monkeys;** Perceptual grouping; Hierarchical stimuli; Local; Global; Primates 45
- Catalepsy;** Depressive-like behavior; Anxiety; WAG/Rij strain; Absence epilepsy; Susceptibility to audiogenic seizures; Rats 9
- CD26;** Substance P; Nociception; Dipeptidyl-peptidase IV 230
- Challenge hypothesis;** Androgen level; Testosterone; 11-Ketotestosterone; Cichlid fish; Social status; *Astatotilapia burtoni* 291
- CHPG;** Vitamin D; Schizophrenia; Learning; Memory; Hole board; Habituation; Haloperidol; Risperidon; Rat 177
- Chronic alcohol consumption;** Σ_1 receptor; Cognitive deficits; Object recognition 166
- Cichlid fish;** Androgen level; Testosterone; 11-Ketotestosterone; Social status; *Astatotilapia burtoni*; Challenge hypothesis 291
- Cognitive deficits;** Chronic alcohol consumption; Σ_1 receptor; Object recognition 166
- Cognitive impairment;** Animal model; Global ischemia; Hippocampus; Selective neuronal death 204

- Compulsive behavior**; Basal ganglia; Striatum; Instrumental conditioning; Operant learning; Procedural learning; Habit; Omission 189
- Conditioned place preference**; Morphine; Muscarinic receptor agonist and antagonist; Nicotinic receptor agonist and antagonist; Dorsal hippocampus; Rat 281
- Copulatory behavior**; Non-genomic effects; Quail; Dopamine; Serotonin; Aromatization 110
- Corticosterone**; Restraint; Y-maze; Hypothalamic–pituitary–adrenal axis 263
- Corticotropin-releasing hormone**; Global ischemia; Neurodegeneration; Memory; Hyperactivity; Rats 85
- CPB-K**; BALB/cJ; NMDA; Sensorimotor gating; Animal model; Neuropsychiatric disease 78
- Cytokine**; Interleukin; $\text{I}\kappa\text{-B}$; Schizophrenia; Sensorimotor gating; Blood–brain barrier 19
- Depression**; Lupus; Autoimmunity; Limbic system; Nucleus accumbens; Amphetamine; Motivated behavior; Sucrose intake; MRL model 32
- Depressive-like behavior**; Anxiety; WAG/Rij strain; Absence epilepsy; Catalepsy; Susceptibility to audiogenic seizures; Rats 9
- Dipeptidyl-peptidase IV**; CD26; Substance P; Nociception 230
- Dog**; Lateralisation; Immunity; Pawedness; Behaviour 236
- Dopamine**; Green odor; Anxiety; (Z)-3-Hexenol; 5-Hydroxytryptamine; Elevated plus-maze 247
- Dopamine**; Neonatal handling; Maternal separation; Learned fear; Ventral tegmental area; Substantia nigra 241
- Dopamine**; Non-genomic effects; Quail; Serotonin; Copulatory behavior; Aromatization 110
- Dorsal hippocampus**; Morphine; Muscarinic receptor agonist and antagonist; Nicotinic receptor agonist and antagonist; Conditioned place preference; Rat 281
- Dorsal Raphe**; Exercise; Serotonergic nuclei; Dorsal tegmental nucleus; Head direction cells; Stress 55
- Dorsal tegmental nucleus**; Dorsal Raphe; Exercise; Serotonergic nuclei; Head direction cells; Stress 55
- Elevated plus maze (EPM)**; Anxiety; Light; GABA; Serotonin; Benzodiazepine 140
- Elevated plus-maze**; Fear conditioning; Ultrasonic vocalization; Anxiety; Individual differences; Handling; Freezing 271
- Elevated plus-maze**; Green odor; Anxiety; (Z)-3-Hexenol; 5-Hydroxytryptamine; Dopamine 247
- Elevated plus-maze**; Inescapable stress; Hippocampus; Frontal cortex; 5-HT; Plasma corticosterone 220
- Estrogen**; Progesterone; Ovariectomy; Estrous cycle; Fear learning; Fear conditioning; Pain sensitivity; Rats 93
- Estrous cycle**; Estrogen; Progesterone; Ovariectomy; Fear learning; Fear conditioning; Pain sensitivity; Rats 93
- Exercise**; Dorsal Raphe; Serotonergic nuclei; Dorsal tegmental nucleus; Head direction cells; Stress 55
- Fear conditioning**; Elevated plus-maze; Ultrasonic vocalization; Anxiety; Individual differences; Handling; Freezing 271
- Fear conditioning**; Estrogen; Progesterone; Ovariectomy; Estrous cycle; Fear learning; Pain sensitivity; Rats 93
- Fear learning**; Estrogen; Progesterone; Ovariectomy; Estrous cycle; Fear conditioning; Pain sensitivity; Rats 93
- Fluoxetine**; State-dependent learning; Amitriptyline; Maprotiline; Inhibitory avoidance; Memory; Sex differences; Mice 150
- Forgetting**; Novelty preferences; Glucose; Tacrine; Memory; Sex differences 39
- Four-plates test**; Anxiety; Mouse; Test experience; 5-HT₂ ligands 131
- Freezing**; Elevated plus-maze; Fear conditioning; Ultrasonic vocalization; Anxiety; Individual differences; Handling 271
- Frontal cortex**; Inescapable stress; Hippocampus; 5-HT; Plasma corticosterone; Elevated plus-maze 220
- Fronto-striatal interactions**; Parkinson's disease; Hypokinesia 253
- GABA**; Anxiety; Light; Serotonin; Elevated plus maze (EPM); Benzodiazepine 140
- Global ischemia**; Animal model; Cognitive impairment; Hippocampus; Selective neuronal death 204
- Global ischemia**; Corticotropin-releasing hormone; Neurodegeneration; Memory; Hyperactivity; Rats 85
- Global**; Perceptual grouping; Hierarchical stimuli; Local; Primates; Capuchin monkeys 45
- Glucose**; Novelty preferences; Tacrine; Memory; Forgetting; Sex differences 39
- Glutathione**; Restraint stress; Immobilization; Psychological stress; L-NAME; Agonistic interaction 71
- Green odor**; Anxiety; (Z)-3-Hexenol; 5-Hydroxytryptamine; Dopamine; Elevated plus-maze 247
- Habit**; Basal ganglia; Compulsive behavior; Striatum; Instrumental conditioning; Operant learning; Procedural learning; Omission 189
- Habituation**; Vitamin D; Schizophrenia; Learning; Memory; Hole board; Haloperidol; Risperidon; CHPG; Rat 177
- Haloperidol**; Vitamin D; Schizophrenia; Learning; Memory; Hole board; Habituation; Risperidon; CHPG; Rat 177
- Handling**; Elevated plus-maze; Fear conditioning; Ultrasonic vocalization; Anxiety; Individual differences; Freezing 271
- Head direction cells**; Dorsal Raphe; Exercise; Serotonergic nuclei; Dorsal tegmental nucleus; Stress 55
- Hierarchical stimuli**; Perceptual grouping; Local; Global; Primates; Capuchin monkeys 45
