

List of Reviewers 2013

The standard of a scientific journal is to a great extent dependent on the quality of its reviewers. The quality of the journal thus also thanks to all reviewers, all those scientists that volunteer to contribute to improving the quality of *Agricultural Water Management* by guiding the authors in their efforts to communicate their results. *Agricultural Water Management* would like to thank the following reviewers for their important contribution to the quality of the journal in 2013:

- | | | |
