

Acknowledgment to Reviewers

The Editorial Committee of PEDOSPHERE relies on the wisdom, experience and advice of many experts in deciding which topics to pursue, which manuscripts to publish, and what modifications to make to ensure scientific accuracy and suitability for readers of the journal. The Editors and the authors would like to sincerely acknowledge the critical evaluation, constructive comments, invaluable assistance and selfless dedication of the following individuals who returned at least one review during the period July 1, 2012 to December 31, 2013. These referees provide the Editors with timely, thoughtful and detailed reviews that are also enormously helpful to authors, encourage revision, improve manuscripts, and enhance level of the research published in the journal, and many referees complete several reviews each year. We apologize for any errors or if we have inadvertently left a reviewer's name off this list although efforts have been made to ensure the accuracy of the list.
