

Sommaire / Contents tome 14, 2015

Editorial / Éditorial

- Stratigraphic range, identification of fragmentary fossils, and the Permo/Triassic crisis
Michel Laurin 343

Avant-propos / Foreword

- A tribute to France de Lapparent de Broin
Michel Laurin, Nathalie Bardet 437

Paléontologie générale, systématique et évolution / General Palaeontology, Systematics and Evolution

(Biostratigraphie / Biostratigraphy)

- Les kystes de dinoflagellés et palynofaciès de la transition Maastrichtien-Danien du stratotype El kef (Tunisie)
Amel M'Hamdi, Hamid Slimani, Stephen Louwye, Mohamed Soussi, Kmar Ben Ismail-Lattrache, Walid Ben Ali 167

(Paléobotanique / Palaeobotany)

- High-resolution pollen record from Efate Island, central Vanuatu: Highlighting climatic and human influences on Late Holocene vegetation dynamics
Claire Combettes, Anne-Marie Sémah, Denis Wirmann 251
- Coryphoid palms from the Oligocene of China and their biogeographical implications
Qiu-Jun Wang, Fu-Jun Ma, Jun-Ling Dong, Yi Yang, Pei-Hong Jin, Bai-Nian Sun 263

(Micropaléontologie / Micropalaeontology)

- Upper Cretaceous Radiolarian ages from an arc-back-arc within the Yüksekova Complex in the southern Neotethys mélange, SE Turkey
Ugur Kağan Tekin, Melek Ural, Mehmet Cemal Göncüoğlu, Mehmet Arslan, Sevcan Kürüm 73

(Paléontologie des invertébrés / Invertebrate palaeontology)

- The oldest record of the grylloblattodean family Euryptilonidae discovered in the Late Carboniferous of France
Justine Myskowiak, Jean-Marc Pouillon, André Nel 1
- Chronostratigraphy and significance of the Rugosa Group (*Cruziana*, trace fossil) in the Ordovician strata of the South American Central Andean Basin
Guillermo Aceñolaza, Susana Heredia, Josefina Carlosi 85
- The wasp family Spathiopterygidae in mid-Cretaceous amber from Myanmar (Hymenoptera: Diaprioidea)
Michael S. Engel, Diying Huang, Dany Azar, André Nel, Steven R. Davis, Mabel Alvarado, Laura C.V. Breitzkreuz 95
- The oldest known riffle beetle (Coleoptera: Elmidae) from Early Cretaceous Spanish amber
David Peris, Crystal A. Maier, Alba Sánchez-García, Xavier Delclòs 181
- The smallest Palaeodictyoptera (Insecta) discovered at Xiaheyan (Late Carboniferous, China)
Xin Liu, Olivier Béthoux, Xiangchu Yin, Dong Ren 346
- Early Pennsylvanian aykhalids from Xiaheyan, northern China and their palaeogeographical significance (Insecta: Megaseoptera)
Martina Pecharová, Jakub Prokop, Dong Ren 613

(Paléontologie des vertébrés / Vertebrate palaeontology)

- A new record of *Notocetus vanbenedeni* (Squalodelphinidae, Odontoceti, Cetacea) from the Early Miocene of Peru
Giovanni Bianucci, Mario Urbina, Olivier Lambert 5

- *Eremotherium laurillardi* (Lund, 1842) (Xenarthra, Megatheriinae) is the only valid megatheriine sloth species in the Pleistocene of intertropical Brazil: A response to Faure et al., 2014
Cástor Cartelle, Gerardo De Iuliis, François Pujos 15
- Occurrence of pharyngeal teeth of the carp, *Cyprinus* Linnaeus (Teleostei, Cyprinidae) in the Middle and Upper Miocene of Andalusia (southern Spain): A puzzling disconnected palaeobiogeographical distribution
Jean Gaudant, Antonio García-Alix, Matthijs Freudenthal 25
- Fossil and subfossil herpetofauna from Cadet 2 Cave (Marie-Galante, Guadeloupe Islands, F. W. I.): Evolution of an insular herpetofauna since the Late Pleistocene
Corentin Bochaton, Sandrine Grouard, Raphaël Cornette, Ivan Ineich, Arnaud Lenoble, Anne Tresset, Salvador Bailon 101
- Three million years of “Terror-Shrew” (*Dinosorex*, Eulipotyphla, Mammalia) in the Miocene of the Vallès-Penedès Basin (Barcelona, Spain)
Marc Furió, Jérôme Prieto, Lars W. van den Hoek Ostende 111
- A new petalichthyid placoderm from the Early Devonian of Yunnan, China
Zhaohui Pan, Min Zhu, You’an Zhu, Liantao Jia 125
- The chelonians from the Latest Miocene–Earliest Pliocenelocalities of Allatini and Pylea (East Thessaloniki, Macedonia, Greece)
Evangelos Vlachos, Tassos Kotsakis, Massimo Delfino 187
- First occurrence of temnospondyls from the Permian and Triassic of Turkey: Paleoenvironmental and paleobiogeographic implications
Josep Fortuny, J.-Sébastien Steyer, Izzet Hoşgör 281
- *Jonoichthys challwa* gen. et sp. nov., a new Aspidorhynchiform (Osteichthyes, Neopterygii, Teleostomorpha) from the marine Upper Jurassic sediments of Argentina, with comments about paleobiogeography of Jurassic aspidorhynchids
Soledad Gouiric-Cavalli 291
- The taxonomic content of *Machimosaurus* (Crocodylomorpha, Thalattosuchia)
Jeremy E. Martin, Peggy Vincent, Jocelyn Falconnet 305
- A new Pleistocene cave bear site in the high mountains of the Spanish Pyrenees: La Brecha del Rincón (Huesca, Spain)
Raquel Rabal-Garcés, Víctor Sauqué 311
- Two new vertebrate localities from the Early Pleistocene of Mygdonia Basin (Macedonia, Greece): Preliminary results
George E. Konidakis, Vangelis Tourloukis, Dimitris S. Kostopoulos, Nicholas Thompson, Domenico Giusti, Dimitrios Michailidis, George D. Koufos, Katerina Harvati 353
- A new specimen of the Early Eocene *Masillacolius brevidactylus* and its implications for the evolution of feeding specializations in mousebirds (Coliiformes)
Gerald Mayr 363
- Lower Pleistocene leporids (Lagomorpha, Mammalia) in Western Europe: New data from the Bois-de-Riquet (Lézignan-la-Cèbe, Hérault, France)
Maxime Pelletier, David Cochard, Myriam Boudadi-Maligne, Jean-Yves Crochet, Laurence Bourguignon 371
- Reassessing the affinities of vertebral remains from Permo-Triassic beds of Gondwana
Graciela Piñeiro, Jorge Ferigolo, Ana María Ribeiro, Pablo Velozo 387
- A Late Pleistocene to Holocene succession of leporid species in the southern Vienna Basin (Austria)
Kristof Veitschegger, Florian A. Fladerer, Doris Nagel 403
- France de Lapparent de Broin: Specialist of turtles and crocodiles
Jean-Claude Rage 443
- Parallelism in the evolution of dental pattern and systematic implications: The case of *Protechimys major* Schlosser, 1884 (Theridomyinae, Rodentia, Mammalia) and its associated rodents
Monique Vianey-Liaud 451
- First dinosaur and turtle remains from the Latest Cretaceous shallow marine deposits of Albaina (Laño quarry, Iberian Peninsula)
Xabier Pereda-Suberbiola, Adán Pérez-García, José Carmelo Corral, Xabier Murelaga, Gorka Martin, Joseba Larrañaga, Nathalie Bardet, Ana Berreteaga, Julio Company 471
- An halosaurine (Squamata: Mosasauridae) from the Late Cretaceous of Patagonia, with a preserved tympanic disc: Insights into the mosasaur middle ear
Marta S. Fernández, Marianella Talevi 483
- Mosasauroid (Squamata) discovery in the Late Cretaceous (Early Campanian) continental deposits of Villeveyrac–L’Olivet, southern France
Géraldine Garcia, Nathalie Bardet, Alexandra Houssaye, Xabier Pereda-Suberbiola, Xavier Valentin 495
