

List of Reviewers

The Biochemical Engineering Journal would like to sincerely thank the following individuals for their time and efforts in assisting the editors with the reviewing of papers published in the journal from 1 December 2006 to 30th November 2007. The journal's quality and impact have continued their upward trends in the past year. This would not have been possible without the efforts of the reviewers. We hope that we may continue to call upon the expertise of these and other valued colleagues in the new year.
