Title: Using *in-situ* viscosimetry and morphogranulometry to explore hydrolysis mechanisms of filter paper and pretreated sugarcane bagasse under semi-dilute suspensions

Authors: Tuan Le, Dominique Anne-Archard, Véronique Coma, Xavier Cameleyre, Eric Lombard, Kim Anh To, Tuan Anh Pham, Tien Cuong Nguyen, Luc Fillaudeau

PII: S1369-703X(17)30186-9
DOI: <http://dx.doi.org/doi:10.1016/j.bej.2017.07.006>
Reference: BEJ 6750

To appear in: *Biochemical Engineering Journal*

Received date: 9-2-2017
Revised date: 30-6-2017
Accepted date: 13-7-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
