Title: Enhanced yield of ethylene glycol production from D-xylose by pathway optimization in *Escherichia coli*

Author: Rhudith B. Cabulong Kris Niño G. Valdehuesa
Kristine Rose M. Ramos Grace M. Nisola Won-Keun Lee
Chang Ro Lee Wook-Jin Chung

PII: S0141-0229(16)30224-1
DOI: <http://dx.doi.org/doi:10.1016/j.enzmictec.2016.10.020>
Reference: EMT 9007

To appear in: *Enzyme and Microbial Technology*

Received date: 8-8-2016
Revised date: 7-10-2016
Accepted date: 30-10-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Enhanced yield of ethylene glycol production from D-xylose by pathway optimization in *Escherichia coli*
