

Accepted Manuscript

Title: Engineering the transposition-based baculovirus expression vector system for higher efficiency protein production from insect cells

Author: Jennifer L. Mehalko Dominic Esposito

PII: S0168-1656(16)31490-0
DOI: <http://dx.doi.org/doi:10.1016/j.jbiotec.2016.09.002>
Reference: BIOTEC 7662

To appear in: *Journal of Biotechnology*

Received date: 21-7-2016
Revised date: 26-8-2016
Accepted date: 2-9-2016

Please cite this article as: Mehalko, Jennifer L., Esposito, Dominic, Engineering the transposition-based baculovirus expression vector system for higher efficiency protein production from insect cells. *Journal of Biotechnology* <http://dx.doi.org/10.1016/j.jbiotec.2016.09.002>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Engineering the transposition-based baculovirus expression vector system for higher efficiency protein production from insect cells
