Title: Transient spectroscopic characterization and theoretical modeling of fulvic acid radicals formed by UV-A radiation

Author: Marcela V. Martin Ricardo A. Mignone Janina A. Rosso Pedro David Gara Reinaldo Pis Diez Claudio D. Borsarelli Daniel O. Mártire

PII: S1010-6030(16)30480-4
DOI: <http://dx.doi.org/doi:10.1016/j.jphotochem.2016.10.007>
Reference: JPC 10391

To appear in: *Journal of Photochemistry and Photobiology A: Chemistry*

Received date: 16-6-2016
Revised date: 26-9-2016
Accepted date: 4-10-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Transient spectroscopic characterization and theoretical modeling of fulvic acid radicals formed by UV-A radiation.
