Binding of ciprofloxacin to bovine serum albumin: Photophysical and thermodynamic aspects

Bijan K. Paul, Nikhil Guchhait, Subhash Chandra Bhattacharya

PII: S1011-1344(17)30262-2

DOI: doi: [10.1016/j.jphotobiol.2017.04.026](https://doi.org/10.1016/j.jphotobiol.2017.04.026)

Reference: JPB 10805

To appear in: *Journal of Photochemistry & Photobiology, B: Biology*

Received date: 27 February 2017

Revised date: ####REVISEDDATE###

Accepted date: 24 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Binding of Ciprofloxacin to Bovine Serum Albumin: Photophysical and
Thermodynamic Aspects**
