

Accepted Manuscript

The photodynamic action of pheophorbide a induces cell death through oxidative stress in *Leishmania amazonensis*

Nathielle Miranda, Hélito Volpato, Jean Henrique da Silva Rodrigues, Wilker Caetano, Tânia Ueda-Nakamura, Sueli de Oliveira Silva, Celso Vataru Nakamura

PII: S1011-1344(17)30483-9

DOI: doi: [10.1016/j.jphotobiol.2017.08.016](https://doi.org/10.1016/j.jphotobiol.2017.08.016)

Reference: JPB 10951

To appear in: *Journal of Photochemistry & Photobiology, B: Biology*

Received date: 10 April 2017

Revised date: 7 August 2017

Accepted date: 9 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The photodynamic action of pheophorbide *a* induces cell death through oxidative stress in *Leishmania amazonensis*
