Title: Triterpenoid Biosynthesis and the Transcriptional Response Elicited by Nitric Oxide in Submerged Fermenting *Ganoderma lucidum*

Authors: Li Gu, Xin Zhong, Danhong Lian, Yimei Zheng, Haizhen Wang, Xin Liu

PII: S1359-5113(17)30231-3
DOI: <http://dx.doi.org/doi:10.1016/j.procbio.2017.05.029>
Reference: PRBI 11058

To appear in: *Process Biochemistry*

Received date: 10-2-2017
Revised date: 28-5-2017
Accepted date: 31-5-2017

Please cite this article as: Gu Li, Zhong Xin, Lian Danhong, Zheng Yimei, Wang Haizhen, Liu Xin. Triterpenoid Biosynthesis and the Transcriptional Response Elicited by Nitric Oxide in Submerged Fermenting *Ganoderma lucidum*. *Process Biochemistry* <http://dx.doi.org/10.1016/j.procbio.2017.05.029>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
