

Accepted Manuscript

Title: Heterologous protein production in *Escherichia coli* biofilms: a non-conventional form of high cell density cultivation

Authors: L.C. Gomes, F.J. Mergulhão

PII: S1359-5113(16)31136-9
DOI: <http://dx.doi.org/doi:10.1016/j.procbio.2017.03.018>
Reference: PRBI 10977

To appear in: *Process Biochemistry*

Received date: 21-12-2016
Revised date: 4-3-2017
Accepted date: 21-3-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Heterologous protein production in *Escherichia coli* biofilms: a non-conventional form of high cell density cultivation

LC Gomes^a and FJ Mergulhão^{a*}
