Title: Production of lactic acid from glycerol via chemical conversion using solid catalyst: A review

Authors: Noraini Razali, Ahmad Zuhairi Abdullah

PII: S0926-860X(17)30302-2
DOI: <http://dx.doi.org/doi:10.1016/j.apcata.2017.07.002>
Reference: APCATA 16307

To appear in: *Applied Catalysis A: General*

Received date: 1-12-2016
Revised date: 22-4-2017
Accepted date: 3-7-2017

Please cite this article as: Noraini Razali, Ahmad Zuhairi Abdullah, Production of lactic acid from glycerol via chemical conversion using solid catalyst: A review, Applied Catalysis A, General <http://dx.doi.org/10.1016/j.apcata.2017.07.002>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Production of lactic acid from glycerol via chemical conversion using solid catalyst:**A review**

Table of Contents

1.0 Introduction.....	4
2.0 Lactic Acid.....	5
3.0 Catalytic conversion of glycerol to lactic acid.....	8
3.1 Catalytic selective oxidation reaction and mechanism	8
3.1.1 Roles of catalyst loading and textural properties of solid catalyst	10
3.1.2 Roles of metal particle sizes and metal distribution	12
3.1.3 Roles of pH (acid and base additives)	14
3.1.4 Roles of metal and support under base-free selective oxidation reaction	15
3.1.5 Roles of catalyst support.....	18
3.2 Catalytic hydrothermal reaction and mechanism	20
3.2.1 Homogeneous alkaline catalysts.....	21
3.2.2 Solid catalysts for hydrothermal reaction.....	22
