

## Accepted Manuscript

Title: Hydroisomerization of *n*-octane over bimetallic Ni-Cu/SAPO-11 catalysts

Authors: Zhichao Yang, Yunqi Liu, Dandan Liu, Xiangtong Meng, Chenguang Liu

PII: S0926-860X(17)30277-6  
DOI: <http://dx.doi.org/doi:10.1016/j.apcata.2017.06.028>  
Reference: APCATA 16290

To appear in: *Applied Catalysis A: General*

Received date: 20-3-2017  
Revised date: 19-6-2017  
Accepted date: 21-6-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Graphical Abstract

## Highlights

- Bimetallic Ni-Cu/SAPO-11 catalysts were prepared by co-impregnation method.
- *n*-Octane hydroisomerization over monometallic Ni/SAPO-11 and bimetallic Ni-Cu/SAPO-11 were compared.
