Title: Crystal Facet-dependent Reactivity of α -Mn₂O₃
Microcrystalline Catalyst for Soot Combustion

Author: Li Cheng Yong Men Jinguo Wang Hao Wang Wei An
Yuanqiang Wang Zhichen Duan Jian Liu

PII: S0926-3373(16)30908-0
DOI: <http://dx.doi.org/doi:10.1016/j.apcatb.2016.11.041>
Reference: APCATB 15221

To appear in: *Applied Catalysis B: Environmental*

Received date: 27-8-2016
Revised date: 30-10-2016
Accepted date: 19-11-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Crystal Facet-dependent Reactivity of α -Mn₂O₃ Microcrystalline Catalyst for Soot Combustion
