Synthesis of bimodal mesoporous silica with coexisting phases by co-hydrothermal aging route with P123 containing gel and F127 containing gel

Lina Yang, Haishun Wu, Jianfeng Jia, Bo Ma, Jian Li

PII: S1387-1811(17)30440-7

DOI: [10.1016/j.micromeso.2017.06.037](https://doi.org/10.1016/j.micromeso.2017.06.037)

Reference: MICMAT 8412

To appear in: *Microporous and Mesoporous Materials*

Received Date: 4 September 2016

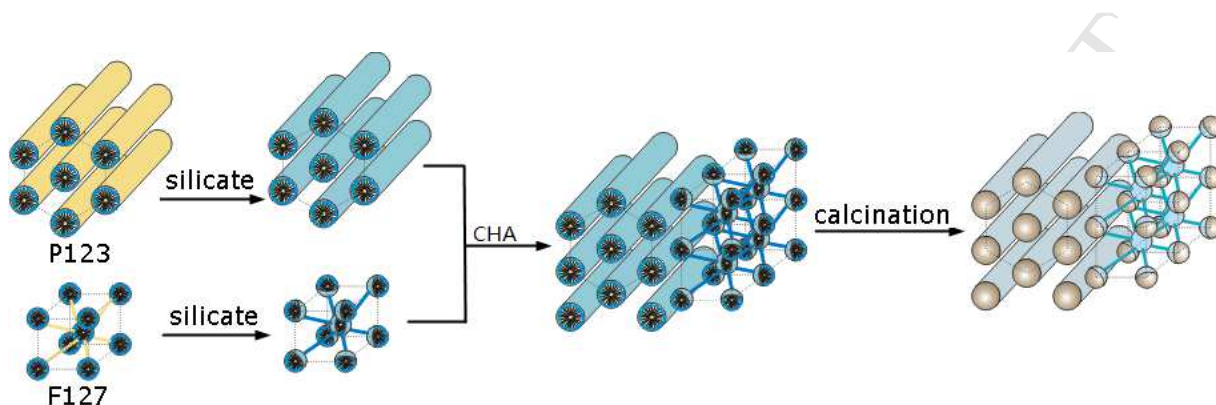

Revised Date: 23 May 2017

Accepted Date: 18 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Synthesis of bimodal mesoporous silica with coexisting
phases by co-hydrothermal aging route with P123
containing gel and F127 containing gel**
