Study on release of naproxen and metformin encapsulated in biopolymer-inorganic mesoporous matrices as controlled drug-delivery systems

Marieh Ghazaie, Payam Ghiaci, Mehran Ghiaci

PII: S1387-1811(16)30518-2

DOI: [10.1016/j.micromeso.2016.11.004](https://doi.org/10.1016/j.micromeso.2016.11.004)

Reference: MICMAT 7996

To appear in: *Microporous and Mesoporous Materials*

Received Date: 26 July 2016

Revised Date: 30 October 2016

Accepted Date: 4 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
