Hexavalent chromium removal from water by ionic liquid modified metal-organic frameworks adsorbent

A. Nasrollahpour, S.E. Moradi

PII: S1387-1811(17)30047-1

DOI: [10.1016/j.micromeso.2017.02.006](https://doi.org/10.1016/j.micromeso.2017.02.006)

Reference: MICMAT 8116

To appear in: *Microporous and Mesoporous Materials*

Received Date: 28 July 2016

Revised Date: 24 December 2016

Accepted Date: 1 February 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Hexavalent chromium removal from water by ionic liquid modified metal-organic frameworks adsorbent
