Titanium Dioxide Thin Film-modified Stainless Steel Mesh for Enhanced Current-generation in Microbial Fuel Cells

Xianbin Ying, Dongsheng Shen, Meizhen Wang, Huajun Feng, Yuan Gu, Wenting Chen

PII: S1385-8947(17)31632-7
DOI: <https://doi.org/10.1016/j.cej.2017.09.132>
Reference: CEJ 17717

To appear in: *Chemical Engineering Journal*

Received Date: 6 July 2017
Revised Date: 20 September 2017
Accepted Date: 22 September 2017

Please cite this article as: X. Ying, D. Shen, M. Wang, H. Feng, Y. Gu, W. Chen, Titanium Dioxide Thin Film-modified Stainless Steel Mesh for Enhanced Current-generation in Microbial Fuel Cells, *Chemical Engineering Journal* (2017), doi: <https://doi.org/10.1016/j.cej.2017.09.132>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Titanium Dioxide Thin Film-modified Stainless Steel Mesh for
Enhanced Current-generation in Microbial Fuel Cells**
