

## Accepted Manuscript

Excessive phosphorus enhances *Chlorella regularis* lipid production under nitrogen starvation stress during glucose heterotrophic cultivation

Liang Fu, Xiaochun Cui, Yunbao Li, Liang Xu, Chaofan Zhang, Ruohan Xiong, Dandan Zhou, John C Crittenden

PII: S1385-8947(17)31329-3  
DOI: <http://dx.doi.org/10.1016/j.cej.2017.07.182>  
Reference: CEJ 17448

To appear in: *Chemical Engineering Journal*

Received Date: 2 May 2017  
Revised Date: 28 July 2017  
Accepted Date: 31 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Excessive phosphorus enhances *Chlorella regularis* lipid production  
under nitrogen starvation stress during glucose heterotrophic  
cultivation**
