Enhancing destruction of copper (I) cyanide and subsequent recovery of Cu(I) by a novel electrochemical system combining activated carbon fiber and stainless steel cathodes

Fayuan Chen, Chengzhi Hu, Meng Sun, Huijuan Liu, Jiuhui Qu, Zhiying Tao

PII: S1385-8947(17)31411-0

DOI: <http://dx.doi.org/10.1016/j.cej.2017.08.075>

Reference: CEJ 17526

To appear in: *Chemical Engineering Journal*

Received Date: 7 April 2017

Revised Date: 31 July 2017

Accepted Date: 14 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Enhancing destruction of copper (I) cyanide and subsequent recovery of Cu(I) by
a novel electrochemical system combining activated carbon fiber and stainless
steel cathodes**
