Assembly of Zr-MOF crystals onto magnetic beads as a highly adsorbent for recycling nitrophenol

Qingxiang Yang, Qianqian Zhao, ShuangShuang Ren, Zhijun Chen, Hegen Zheng

PII: S1385-8947(17)30636-8
DOI: <http://dx.doi.org/10.1016/j.cej.2017.04.091>
Reference: CEJ 16845

To appear in: *Chemical Engineering Journal*

Received Date: 6 March 2017
Revised Date: 17 April 2017
Accepted Date: 18 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
