Study of Quench Effect on Heavy Metal Uptake Efficiency by an Aluminosilicate-based Material

Chao Ning, Meng Xu, David Chi-Wai HUI, Carol LIN Sze Ki, Gordon McKay

PII: S1385-8947(16)31640-0
DOI: <http://dx.doi.org/10.1016/j.cej.2016.11.078>
Reference: CEJ 16079

To appear in: *Chemical Engineering Journal*

Received Date: 22 September 2016
Revised Date: 8 November 2016
Accepted Date: 9 November 2016

Please cite this article as: C. Ning, M. Xu, D. Chi-Wai HUI, C. LIN Sze Ki, G. McKay, Study of Quench Effect on Heavy Metal Uptake Efficiency by an Aluminosilicate-based Material, *Chemical Engineering Journal* (2016), doi: <http://dx.doi.org/10.1016/j.cej.2016.11.078>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Study of Quench Effect on Heavy Metal Uptake Efficiency by an Aluminosilicate-based Material
