Enzymatic carbon dioxide capture using a thermally stable carbonic anhydrase as a promoter in potassium carbonate solvents

Guoping Hu, Kathryn H. Smith, Nathan J. Nicholas, Joel Yong, Sandra E. Kentish, Geoffrey W. Stevens

PII: S1385-8947(16)31138-X
DOI: <http://dx.doi.org/10.1016/j.cej.2016.08.064>
Reference: CEJ 15630

To appear in: *Chemical Engineering Journal*

Received Date: 7 July 2016
Revised Date: 10 August 2016
Accepted Date: 11 August 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
