Zinc acetate supported on N-doped activated carbon as catalysts for acetylene acetoxylation

Xueyi Wu, Peijie He, Xugen Wang, Bin Dai

PII: S1385-8947(16)31334-1
DOI: <http://dx.doi.org/10.1016/j.cej.2016.09.090>
Reference: CEJ 15800

To appear in: *Chemical Engineering Journal*

Received Date: 26 April 2016
Revised Date: 10 September 2016
Accepted Date: 17 September 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Zinc acetate supported on N-doped activated carbon as
catalysts for acetylene acetoxylation**
