Mechanism insight of degradation of norfloxacin by magnetite nanoparticles activated persulfate: Identification of radicals and degradation pathway

Dahu Ding, Chao Liu, Yuefei Ji, Qian Yang, Lulu Chen, Canlan Jiang, Tianming Cai

PII: S1385-8947(16)31313-4

DOI: <http://dx.doi.org/10.1016/j.cej.2016.09.077>

Reference: CEJ 15787

To appear in: *Chemical Engineering Journal*

Received Date: 5 July 2016

Revised Date: 12 September 2016

Accepted Date: 14 September 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Mechanism insight of degradation of norfloxacin by magnetite
nanoparticles activated persulfate: Identification of radicals and
degradation pathway**
