

Accepted Manuscript

Title: A Multi-Objective Optimization Model for Gas Pipeline Operations

Authors: Alem Demissie, Weihang Zhu, Chanyalew Taye Belachew

PII: S0098-1354(17)30073-X
DOI: <http://dx.doi.org/doi:10.1016/j.compchemeng.2017.02.017>
Reference: CACE 5720

To appear in: *Computers and Chemical Engineering*

Received date: 4-8-2016
Revised date: 20-1-2017
Accepted date: 7-2-2017

Please cite this article as: Demissie, Alem., Zhu, Weihang., & Belachew, Chanyalew Taye., A Multi-Objective Optimization Model for Gas Pipeline Operations. *Computers and Chemical Engineering* <http://dx.doi.org/10.1016/j.compchemeng.2017.02.017>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A Multi-Objective Optimization Model for Gas Pipeline Operations

Alem Demissie¹, Weihang Zhu^{1*}, Chanyalew Taye Belachew²
