Influence of the structural features of amino-based pyranoanthocyanins on their acid-base equilibria in aqueous solutions

Joana Oliveira, Paula Araújo, Ana Fernandes, Natércia F. Brás, Nuno Mateus, Fernando Pina, Victor de Freitas

PII: S0143-7208(17)30073-6

DOI: [10.1016/j.dyepig.2017.03.005](https://doi.org/10.1016/j.dyepig.2017.03.005)

Reference: DYPI 5831

To appear in: *Dyes and Pigments*

Received Date: 12 January 2017

Revised Date: 1 March 2017

Accepted Date: 2 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Influence of the structural features of amino-based pyranoanthocyanins on their**
2 **acid-base equilibria in aqueous solutions.**
