

# Accepted Manuscript

Synthesis, crystal structure and reversible mechanofluorochromic properties of a novel phenothiazine derivative

Junhui Jia, Yuying Wu

PII: S0143-7208(16)30723-9

DOI: [10.1016/j.dyepig.2016.09.033](https://doi.org/10.1016/j.dyepig.2016.09.033)

Reference: DYPI 5485

To appear in: *Dyes and Pigments*

Received Date: 29 June 2016

Revised Date: 6 September 2016

Accepted Date: 12 September 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Synthesis, Crystal Structure and Reversible Mechano- and Fluorochromic Properties of a Novel Phenothiazine Derivative
