Insight into increased stability of methane hydrates at high pressure from phase equilibrium data and molecular structure

Yue Hu, Bo Ram Lee, Amadeu K. Sum

PII: S0378-3812(17)30262-5

DOI: [10.1016/j.fluid.2017.07.003](https://doi.org/10.1016/j.fluid.2017.07.003)

Reference: FLUID 11525

To appear in: *Fluid Phase Equilibria*

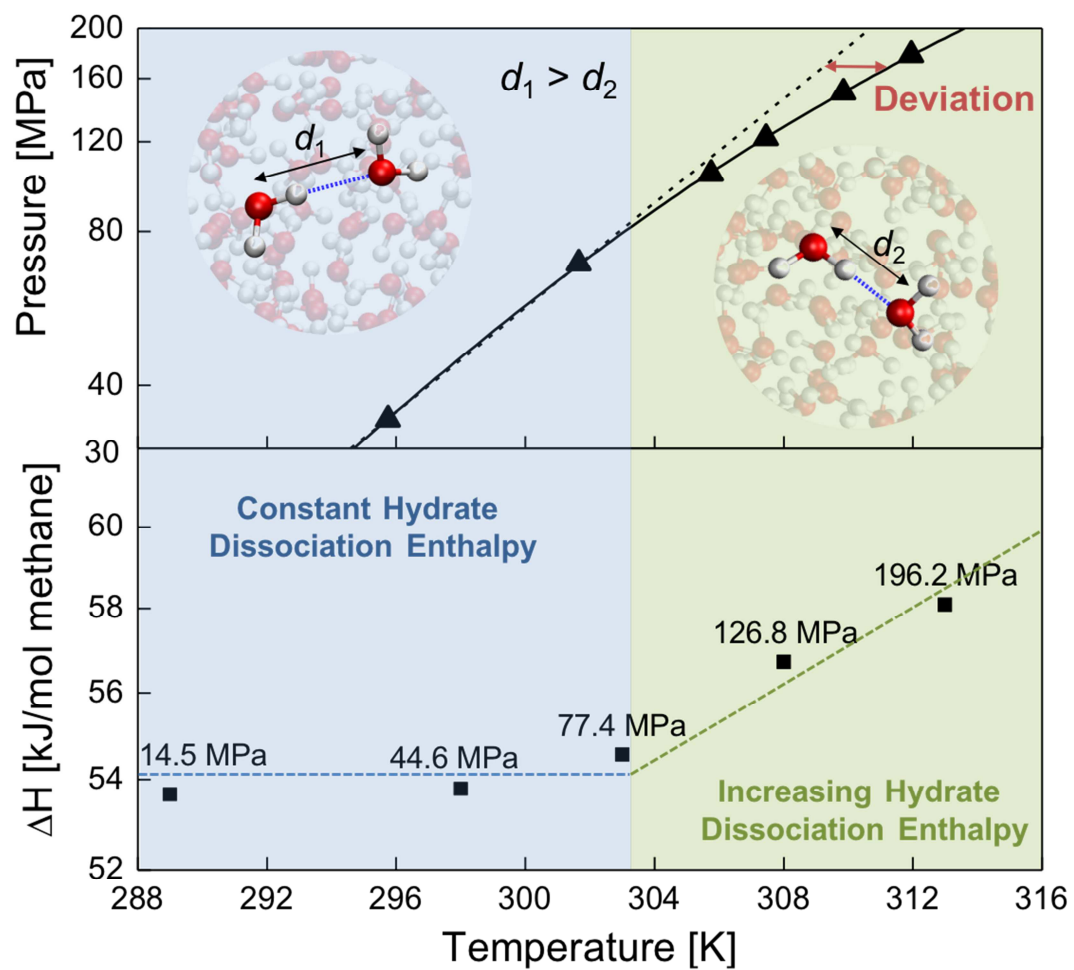

Received Date: 24 February 2017

Revised Date: 12 June 2017

Accepted Date: 5 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
