Hydrometallurgical separation of copper and cobalt from lithium-ion batteries using aqueous two-phase systems

Daniela da Silveira Leite, Pablo Luis Gutierrez Carvalho, Leandro Rodrigues de Lemos, Aparecida Barbosa Mageste, Guilherme Dias Rodrigues

PII: S0304-386X(16)30364-4
DOI: doi: [10.1016/j.hydromet.2017.01.002](https://doi.org/10.1016/j.hydromet.2017.01.002)
Reference: HYDROM 4493
To appear in: *Hydrometallurgy*
Received date: 20 June 2016
Revised date: 7 December 2016
Accepted date: 21 January 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
