Separation of binary mixtures hexane/hex-1-ene, cyclohexane/cyclohexene and ethylbenzene/styrene based on limiting activity coefficients

Urszula Domańska, Michał Wlazło, Monika Karpińska, Maciej Zawadzki

PII: S0021-9614(17)30064-2
DOI: <http://dx.doi.org/10.1016/j.jct.2017.03.004>
Reference: YJCHT 4998

To appear in: *J. Chem. Thermodynamics*

Received Date: 27 January 2017
Revised Date: 6 March 2017
Accepted Date: 8 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

J. Chem. Thermodyn.

**Separation of binary mixtures hexane/hex-1-ene,
cyclohexane/cyclohexene and ethylbenzene/styrene based on
limiting activity coefficients**
