

## Accepted Manuscript

The effects of temperature and alkyl chain length on the density and surface tension of the imidazolium-based geminal dicationic ionic liquids

Majid Moosavi, Fatemeh Khashei, Ali Sharifi, Mojtaba Mirzaei

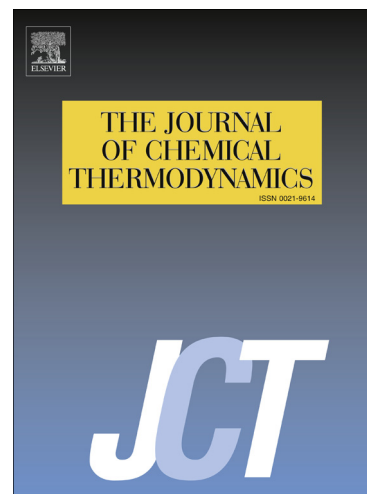

PII: S0021-9614(16)30406-2  
DOI: <http://dx.doi.org/10.1016/j.jct.2016.12.009>  
Reference: YJCHT 4920

To appear in: *J. Chem. Thermodynamics*

Received Date: 25 May 2016  
Revised Date: 8 December 2016  
Accepted Date: 15 December 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**The effects of temperature and alkyl chain length on the density and surface tension of the imidazolium-based geminal dicationic ionic liquids**
