

Accepted Manuscript

Electrochemical synthesis, optical properties and morphological characterization of ZnO/Poly(N-PhMI-co-HEMA) nanocomposite

Diego P. Oyarzún, Alejandra Tello, Guadalupe del C. Pizarro, Rudy Martin-Transaco, César Zúñiga, Jose Manuel Perez-Donoso, Ramiro Arratia-Perez

PII: S1572-6657(17)30467-8
DOI: doi: [10.1016/j.jelechem.2017.06.039](https://doi.org/10.1016/j.jelechem.2017.06.039)
Reference: JEAC 3370
To appear in: *Journal of Electroanalytical Chemistry*
Received date: 12 September 2016
Revised date: 21 June 2017
Accepted date: 21 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Electrochemical synthesis, optical properties and morphological characterization of ZnO/Poly(N-PhMI-co-HEMA) nanocomposite
