

Accepted Manuscript

Title: Gypsum-Reinforced Zeolite Composite for Particulate Matter Reduction from Vehicular Emissions

Authors: Melissa May Muñoz-Boado, Eugene B. Caldon

PII: S2213-3437(17)30193-8

DOI: <http://dx.doi.org/doi:10.1016/j.jece.2017.05.003>

Reference: JECE 1606

To appear in:

Received date: 26-2-2017

Revised date: 29-4-2017

Accepted date: 3-5-2017

Please cite this article as: Melissa May Muñoz-Boado, Eugene B. Caldon, Gypsum-Reinforced Zeolite Composite for Particulate Matter Reduction from Vehicular Emissions, Journal of Environmental Chemical Engineering <http://dx.doi.org/10.1016/j.jece.2017.05.003>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Gypsum-Reinforced Zeolite Composite for Particulate Matter Reduction from Vehicular Emissions
