

Accepted Manuscript

Title: In-situ cleaning of heavy metal contaminated plastic water pipes using a biomass derived ligand

Authors: Xiangning Huang, Shou Zhao, Mahdi Abu-Omar, Andrew J. Whelton

PII: S2213-3437(17)30307-X
DOI: <http://dx.doi.org/doi:10.1016/j.jece.2017.07.003>
Reference: JECE 1718

To appear in:

Received date: 15-3-2017
Revised date: 2-6-2017
Accepted date: 2-7-2017

Please cite this article as: Xiangning Huang, Shou Zhao, Mahdi Abu-Omar, Andrew J. Whelton, In-situ cleaning of heavy metal contaminated plastic water pipes using a biomass derived ligand, Journal of Environmental Chemical Engineering <http://dx.doi.org/10.1016/j.jece.2017.07.003>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

In-situ cleaning of heavy metal contaminated plastic water pipes using a biomass derived ligand
