Effect of pregelatinized starch paste on the ease of swallowing high-moisture content bread

Fumika Sugiura, Seiko Ito, Eiko Arai

PII: S0260-8774(17)30267-4

DOI: [10.1016/j.jfoodeng.2017.06.021](https://doi.org/10.1016/j.jfoodeng.2017.06.021)

Reference: JFOE 8926

To appear in: *Journal of Food Engineering*

Received Date: 11 July 2016

Revised Date: 26 May 2017

Accepted Date: 18 June 2017

Please cite this article as: Sugiura, F., Ito, S., Arai, E., Effect of pregelatinized starch paste on the ease of swallowing high-moisture content bread, *Journal of Food Engineering* (2017), doi: 10.1016/j.jfoodeng.2017.06.021.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Effect of pregelatinized starch paste on the ease of swallowing**
2 **high-moisture content bread**
