Influence of particle size distribution on minimum fluidization velocity and bed expansion at elevated pressure

Rongtao Feng, Junguo Li, Zhonghu Cheng, Xin Yang, Yitian Fang

PII: S0032-5910(17)30561-2
DOI: doi:[10.1016/j.powtec.2017.07.024](https://doi.org/10.1016/j.powtec.2017.07.024)
Reference: PTEC 12666

To appear in: *Powder Technology*

Received date: 21 March 2017
Revised date: 21 June 2017
Accepted date: 6 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Influence of particle size distribution on minimum fluidization velocity and bed expansion at elevated pressure
