Numerical studies of multiphase flow and separation performance of natural medium cyclones for recovering waste coal

Kaiwei Chu, Jiang Chen, Aibing Yu, Richard A. Williams

PII: S0032-5910(16)30729-X
DOI: doi: [10.1016/j.powtec.2016.10.047](https://doi.org/10.1016/j.powtec.2016.10.047)
Reference: PTEC 12046

To appear in: *Powder Technology*

Received date: 17 June 2016
Revised date: 15 October 2016
Accepted date: 22 October 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Numerical studies of multiphase flow and separation performance of natural medium cyclones for recovering waste coal

Kaiwei Chu^{1*}, Jiang Chen¹, Aibing Yu¹ and Richard A. Williams²
