Computational and experimental strain analysis of flexural bending of thick glass/epoxy laminates

A. Gorjipoor, J.F. Simpson, R. Ganesan, S.V. Hoa

PII: S0263-8223(17)30134-4

DOI: <http://dx.doi.org/10.1016/j.compstruct.2017.05.066>

Reference: COST 8576

To appear in: *Composite Structures*

Received Date: 17 January 2017

Revised Date: 25 May 2017

Accepted Date: 28 May 2017

Please cite this article as: Gorjipoor, A., Simpson, J.F., Ganesan, R., Hoa, S.V., Computational and experimental strain analysis of flexural bending of thick glass/epoxy laminates, *Composite Structures* (2017), doi: <http://dx.doi.org/10.1016/j.compstruct.2017.05.066>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Computational and experimental strain analysis of flexural bending of thick glass/epoxy laminates
