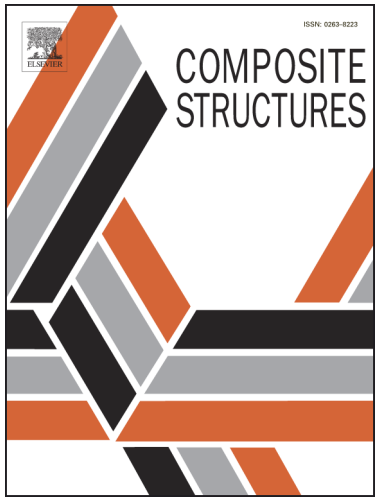
Accepted Manuscript



Analysis of laminated beams via Unified Formulation and Legendre polynomial expansions

A. Pagani, A.G. de Miguel, M. Petrolo, E. Carrera

PII: S0263-8223(16)00118-5
DOI: http://dx.doi.org/10.1016/j.compstruct.2016.01.095
Reference: COST 7201

To appear in: *Composite Structures*

Please cite this article as: Pagani, A., de Miguel, A.G., Petrolo, M., Carrera, E., Analysis of laminated beams via Unified Formulation and Legendre polynomial expansions, *Composite Structures* (2016), doi: http://dx.doi.org/10.1016/j.compstruct.2016.01.095

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
