

## Accepted Manuscript

Title: Impacts of climate change on US building energy use by using downscaled hourly future weather data

Author: Pengyuan Shen Ali M. Malkawi

PII: S0378-7788(16)30828-3

DOI: <http://dx.doi.org/doi:10.1016/j.enbuild.2016.09.028>

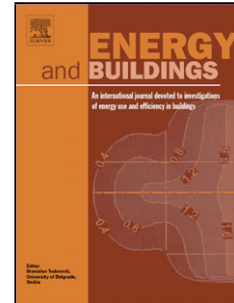

Reference: ENB 7017

To appear in: *ENB*

Received date: 18-7-2013

Revised date: 29-8-2016

Accepted date: 13-9-2016

Please cite this article as: Pengyuan Shen, Ali M.Malkawi, Impacts of climate change on US building energy use by using downscaled hourly future weather data, Energy and Buildings <http://dx.doi.org/10.1016/j.enbuild.2016.09.028>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **Impacts of climate change on US building energy use by using downscaled hourly future weather data**
