Characterizing powders in order to determine their flow behavior in a mixer:
From small scale observations to macroscopic in-mixer rheology for powders
of various flowabilities

Léonard Legoix, Cendrine Gatumel, Mathieu Milhé, Henri Berthiaux

PII: S0032-5910(17)30622-8
DOI: doi:[10.1016/j.powtec.2017.07.075](https://doi.org/10.1016/j.powtec.2017.07.075)
Reference: PTEC 12717

To appear in: *Powder Technology*

Received date: 19 October 2016
Revised date: 19 July 2017
Accepted date: 21 July 2017
