

Accepted Manuscript

The sensitivity of filtered Two Fluid Models to the underlying resolved simulation setup

Jan Hendrik Cloete, Schalk Cloete, Federico Municchi, Stefan Radl, Shahriar Amini

PII: S0032-5910(16)30861-0
DOI: doi:[10.1016/j.powtec.2016.11.064](https://doi.org/10.1016/j.powtec.2016.11.064)
Reference: PTEC 12140

To appear in: *Powder Technology*

Received date: 15 May 2016
Revised date: 31 October 2016
Accepted date: 29 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The sensitivity of filtered Two Fluid Models to the underlying resolved simulation setup
