Modeling the particle scavenging and thermal efficiencies of a heat absorbing scrubber

Haijiao Cui, Nianping Li, Jinqing Peng, Jianlin Cheng, Nan Zhang, Zhibin Wu

PII: S0360-1323(16)30430-9

DOI: [10.1016/j.buildenv.2016.11.006](https://doi.org/10.1016/j.buildenv.2016.11.006)

Reference: BAE 4688

To appear in: *Building and Environment*

Received Date: 26 July 2016

Revised Date: 27 October 2016

Accepted Date: 3 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Modeling the particle scavenging and thermal efficiencies of a heat
2 absorbing scrubber
