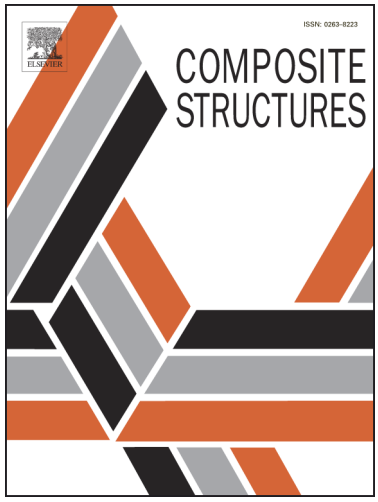
Accepted Manuscript



Non-Linear Vibration of Composite Orthotropic Cylindrical Shells on the Non-Linear Elastic Foundations within the Shear Deformation Theory

A.H. Sofiyev, Z. Karaca, Z. Zerin

PII: S0263-8223(16)31406-4
DOI: http://dx.doi.org/10.1016/j.compstruct.2016.09.048
Reference: COST 7774

To appear in: *Composite Structures*

Received Date: 31 July 2016
Accepted Date: 16 September 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
