

## Accepted Manuscript

Influence of plate length and anchor position on FRP-to-concrete joints anchored with FRP anchors

Huawen Zhang, Scott T. Smith

PII: S0263-8223(16)30615-8

DOI: <http://dx.doi.org/10.1016/j.compstruct.2016.09.086>

Reference: COST 7812

To appear in: *Composite Structures*

Received Date: 16 May 2016

Revised Date: 30 August 2016

Accepted Date: 28 September 2016

Please cite this article as: Zhang, H., Smith, S.T., Influence of plate length and anchor position on FRP-to-concrete joints anchored with FRP anchors, *Composite Structures* (2016), doi: <http://dx.doi.org/10.1016/j.compstruct.2016.09.086>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Influence of plate length and anchor position on FRP-to-concrete joints  
anchored with FRP anchors**
